

PLANETIX

Felix Bengtsson - Crypto Economy Architect

COMPARING THE TWO DIFFERENT GAME UTILITIES

					
MONOPOLY	Game starts with random outcomes	Enables purchase and collection starts	Game develops more into strategically decisions	First mover advantage usually wins	Winner gets short lived glory from F&F
 PLANET IX					
	Investing in PIX = lucky draws	Single & spread PIX = low value assets	Group of asset enables exponential value creation in marketplace	NFT can be individually or co-owned	Real world Yield bearing asset generates payouts to NFT owners

How does PIX Pack Drops work?

PIX UNITS

SINCE THE GAME IS DIVIDED BY VALUE IN DIFFERENT TIERS EACH PIX UNIT IN THE GAME HAS THE SAME PURCHASE VALUE INDEPENDENT OF THE TIER. EACH PIX UNIT IS PRICED AT 1€ IN PURCHASE PRICE FROM THE PACKS.

LEGENDARY
1 PIX = 1 PIX Unit

CAPITAL CITY CENTER

RARE
10 PIX = 1 PIX Unit

CAPITAL CITY NATURAL RESERVE

UNCOMMON
20 PIX = 1 PIX Unit

COASTAL LINE METROPOLITAN AREA

COMMON
100 PIX = 1 PIX Unit

SUBURBAN AREA COUNTRY-SIDE

OUTLIERS
1000 PIX = 1 PIX Unit

ARCTIC/MOUNTAINS DESERT/TUNDRA

Geologically Imagery

Layering in a spectacular way the specific land mass of each PIX dependent on what Tier & Classifications they belong to.

Game Data

Coordinates of where each specific PIX are located in on Planet IX world map. Also stores and shares when the land was release from the game and what sales/ transfers that have been made.

TILES OF LAND

PIX

PIX are the 10x10m² hexagon-shaped tiles of land that the game consists of.

There are 1.5 trillion (1 500 000 000 000) PIX in total

Core Product Experiences

Marketplace

The market place is the stock exchange for PIX parcels users can trade with each other on the free market.

Core Product Experiences & services

NFTS = True Ownership

Neither Planet IX or other players
cant take control of your
collectables/NFTs

Open Worlds

we believe our NFT Assets, will go
further than our own platform. The
community will decide where to take &
use them.

DAO

is an organization represented by
rules encoded as a computer
program that is transparent,
controlled by the organization
members and not influenced by a
central government

Verifiable Authenticity

The whole internet will you know
you own Taj Mahal

What is a NFT?

	In-App Items	NFT	Physical Goods
Digital			
True Ownership			
Verifiable Scarcity		  	  
Enduring			

Why Should the Crowd 1 Network Care though?

-  **Engaging product, with unlimited upside on private finances**
-  **New Revenue Stream**
-  **Bolstering Digital Presence**

How do we win? - By not compromising on Vision

-  **Making onboarding a friend easy and rewarding, so users don't have to be weird about inviting a friend**
-  **Creating a collaborative environment where users can build co-investing collectives / companies on top of Planet IX**
-  **Full transparency & decentralized participation in the long run so users don't have to trust Planet IX**
-  **Improving the world through Non-profit donations & investing in green impact projects**
